Book Synopsis

Making Evidence Matter in Canadian Health Policy is a compendium of Op-Eds published in the media in 2012-2013 by some of Canada's leading experts in the field, offering a snapshot of the evidence on the issues of the day. It is the second in a series of eBooks produced by EvidenceNetwork.ca, the first being Canadian Health Policy in the News.

This second volume addresses a range of controversial topics, such as whether or not our health system is sustainable and how our health care dollars are spent. Other sections address pharmaceutical policy, private-for-profit delivery of care, social determinants of health, aging, mental health and obesity.
