### Book Synopsis

A comprehensive training manual for medical scribes meant for scribes in a variety of settings. The general edition is the alternative to our emergency department and primary care editions for those in other settings. Used by medical scribe training companies throughout the country, this text will give your medical scribes the necessary background knowledge to hit the ground running in clinical training. Online medical scribe courses, like the one accompanying the general handbook, can be purchased at [medicalscribetraining.net](http://medicalscribetraining.net).
