Discharge Services
 No maximum components

	99237	99238	99239
PP Severity	Observation/Low	Hospital care, < 90 min	Hospital care, > 90 min

Split Shared Billing
 When a hospital inpatient (MI) is split between a physician and an NPP from the same practice and the physician provides any face-to-face portion of the ED encounter with the patient, the service may be billed under the physician or the NPP. However, there may be face-to-face encounter between the patient and the physician, the service may only be billed under the NPP when possible. This guideline is not applicable to initial care as split shared billing is not allowed.

*The visit duration for consulting or coordinating care, does not total face-to-face (inpatient or out) face-to-face time and that time that 50% of face-to-face time is spent on counseling or coordinating care. Time is based on components. †No time is assigned to observation care discharge.
