Book Synopsis

In the words of George Noory, "Monumental Myths, is a veritable buffet for so-called conspiracy theorists." So, put on your seatbelt and prepare to be thrust headlong into the world of "conspiracy reality." "In Monumental Myths, Ty Bollinger welcomes you into a scenic tour of some of the most outrageous events in our modern history - and he is an excellent tour guide. You'll move at a good pace, knocking back topic after topic with gusto. You won't be bogged down with the kind of tedious excess that is the death of most PBS-endorsed political guidebooks, but neither will you lose essential and enlightening detail. And Ty's good-humored, common-sense but well-reasoned approach will keep you involved (and smiling) throughout, wanting to see what big lie gets skewered next. The events are covered, major and minor, from JFK to GMO, Boston to Waco, aspartame to Oklahoma City, fluoride to Monsanto-land, MLK, chemtrails and beyond. The book functions as a kind of 'greatest hits, ' or sportsman's guide to a 'World Series of Conspiracy.' Ty brings that feeling to his work: the love of a good sports writer for a game. The game here is our history of national and international deception, played by the jackals who've manipulated their way into power. Most authors take on one issue to excess, burying us in useless and irrelevant data, without drawing our eye to the hundred similar (or identical) events on the horizon. But what we really want - and what Ty delivers - is a compendium, a means to compare and contrast the lies of history: how much better it is to have it all laid out in one, colorful, entertaining volume. And what's wrong with being entertaining? The bad guys don't know what to do when the truth-tellers crack wise and get funny - it throws them off their pitch. So much the better for the truth-seekers that we keep our sense of humor - and Ty certainly does. Even when the material goes into dark country, even when we're faced with acts of willful destruction so callo
