Book Synopsis

Paperback. Pub Date: 2001 07 Pages: 288 Publisher: Camidge. University Press People today Must make decisions about many Health Safety and environmental (37) overland Nuclear Power. On of HIV/AIDS Radon Vaccines. Climate change and contrasting emerging infectious diseases are just some issues that may face them in the news media. ballot box. or doctor's office. In order to make sound choices they need to get good information. Because their time is limited. that information has to be carefully selected and clearly presented. This book provides a systematic approach for risk communicators and technical experts. hoping to serve the public by providing information about risks. The procedure uses approaches from risk and decision analysis to identify the most relevant information; it uses approaches from psychology and communication theory to ensure that it is understood. This boo...
