## Book Synopsis

Part of the popular LPN Threads series, Introduction to Maternity and Pediatric Nursing provides a solid foundation in obstetrics and pediatric nursing. An easy-to-follow organization by developmental stages, discussions of disorders by body system from simple-to-complex and health-to-illness, and a focus on family health make it a complete guide to caring for maternity and pediatric patients. Written in a clear, concise style by Gloria Leifer, MA, RN, CNE, this edition contains newly updated NCLEX exam-style review questions and unfolding case studies, along with additional material on bioterrorism and disasters, safety, health promotion, nutrition, and related psychosocial care.
